Call 911 in case of emergency.

In the event of a medical emergency the following procedures will be followed:

1. Identified medically trained personnel will assess the injury/condition and will make or direct the call to 911. EMS will be instructed to report to the field address noted above.
2. The onsite medical personnel will provide emergency care and comfort to the player until EMS arrives. The designated medical personnel will then provide pertinent info to EMS (such as cause of injury, vital signs, treatment rendered, and medical history) and assist with medical care as needed.
3. The event coordinator or the player's coach will notify the player's parents if needed.
4. The player's coach or other identified responsible adult will accompany player, if underage, to the hospital.
5. The event coordinator will complete the appropriate injury reports.
6. The player's coach will call the player the following day to ascertain the outcome and to supply the Event Coordinator with an update.
